AGRICULTURAL YEAR

A warm and wet Winter was followed by a cold and extremely wet Spring, demanding for extensive labour to protect the vineyards. Ripening was slightly delayed and a hot and dry Summer, favouring the development of healthy grapes. A globally dry harvest with very welcomed moderate spells of rain ensured what ended up to be a high-quality crop.

GRAPE VARIETIES

Field blend with typical Douro grapes, including Rabigato, C3dega, C3dega do Larinho, Cerceal, Gouveio, Donzelinho Branco, Arinto, Folgaz3o, S3millon and many others.

VINEYARDS

Granite soils. Made from a very old, pre-phylloxera vineyard in a small granite plateau (600 m above sea level) in the parish of Freixo de Num3o, 15 km to the West of Foz C3a.

VINIFICATION

Grapes were picked relatively early in the season and foot trodden in stone lagares, in a traditional way. Fermentation was interrupted with the inclusion of 77% alcohol wine brandy, as usual for Port.

3LEVAGE

9 months in stainless steel tanks, early bottling to preserve freshness and liveliness.
